

Reflections of Evil

Bloodbound

I'm dead or dreaming
I'm standing on the edge
The light has died away
The dark in all remains
Ferryman is waiting
Has come to take his toll
And it's killing me
Searching for forgiveness
I'm praying for my soul
Blood is on my hands
The minds eye scars unfold
The memories of my past
Forever haunts my mind
Forgive me i'll burn for eternity
Kneel down repent in sorrow
And your soul shall return
First of the fallen
The last of a dream
A sinner is stuck in between
Hear the piper is calling
The rise and the fall
Reflections of evil in all
I hear a warning
I'll never walk with you
The corners of my mind
I'm scared of what i'll do
Feeding the fire
An ever burning flame
My journey to hell leads to pain
Kneel down repent in sorrow
And your soul shall return
[repeat chorus]
