Tabula Rasa

Bloodbound

I reach so deep inside the shambles that is me Lie to myself and sometimes tell me I am free to Connect the dots to make a sine, to make it mine Connect the dots my friend Step right out of line Why chase a dream that's never there? Why chase a dream that's everywhere? Tabula Rasa You gotta let me know Tabula Rasa Tell me what and who we're fightin' Tabula Rasa You gotta let me know Tabula Rasa What I am and who I was before With every reason, there's two more to withhold To prove beyond a doubt this lonely heart is cold Extensive mining of the mind should take it's toll Corrective surgery to fingerprint your soul Who wants a second chance to live If there's a second chance to give?
