

Together We Fight

Bloodbound

They say the world is still the same
I say there is a burning flame
And the tide's about to turn
Some say it's only in your brain
I say it's real, the cause of pain
And their greed, that is all you serve
Don't give up your life
Without a fight
Open up your eyes
Aim, fire
I pledge allegiance
To goblins and heathens
March by my side
Together we fight
Join my battalion
And serve the medallion
Slay by my side
Together we fight
They say there's nothing to behold
I say we're out there in the cold
And the worst is yet to come
Some say you better stand in line
I say there is an evil sign
And a time when we all must die
Don't give up your life
Without a fight
Open up your eyes
Aim, fire
I pledge allegiance
To goblins and heathens
March by my side
Together we fight
Join my battalion
And serve the medallion
Slay by my side
Together we fight
