

Dark Angel

Bloodflowerz

you're all i wanted - all i love
you're my dark light
my angel - all i'm dreaming of
you're my delight
you are the half making me complete
you're all i need

i never thought this night will end
i thought my eyes try to pretend
now i know secret dreams come true
i know it's true since i found you

you're all i wanted - all i love
you're my dark light
my angel - all i'm dreaming of
you're my delight
you are the half making me complete
you're all i need

you are desire i once cursed
the dream i yearned for with bad thirst
before you came my heart was dead
i loved you long before i met you

you're all i wanted - all i love
you're my dark light
my angel - all i'm dreaming of
you're my delight
you are the half making me complete
you're all i need

you're my dark light
you're all i need
you're my delight
you're all i need...
