

# Queen Of The Freakshow

Bloodflowerz

I sit alone in my room waiting  
Waiting for the demons to go  
And I don't wanna know what I yet know

I am the queen in this freakshow  
When love's too low and pain's too high  
The only answer is goodbye

My hope's just the dope to bear your last words  
Now I see farewell's the key to love  
Can't hold you back

Successfully I killed reality  
I'm too deaf to be hurt  
By the void of your words  
But I yet know

I am the queen in this freakshow  
You need to go, so I can't keep  
Back the traveller on the leap

My hope's just the dope to bear your last words  
Now I see farewell's the key to love  
Can't hold you back

I must confess, my loneliness gave me the time  
I need to learn how to go, how to say goodbye

My hope's just the dope to bear your last words  
Now I see farewell's the key to love  
Can't hold you back
