

Farting With A Walkman On

Bloodhound Gang

I know you're gonna play me when you get wind
I heard you're full of shit so I've been duped again
But if you cover your ass with the same old song
You might as well be farting farting with a Walkman on

I know you're gonna play me when you get wind

But if you cover your ass with the same old song
You might as well be farting farting with a Walkman on
