

Bad-ass Blues

Bloodpit

Out there, everywhere, without care, way too blind
Doin' fine, spending time, looking good, way too good
Loud talk, big talk, full of lies, don't you tell me to
go
I'm alright, only tired, making out, life is good

I didn't mean to break your heart
I didn't mean to mess up everything

Sometimes I wish I lived like you
But to me it's still too plain
For my sake I wish I lived like you
But I wouldn't be the same

Restrained, so far, concentrate, give it a try
How nice to see the sun, to breathe fresh air and to care
It's good to be alive, to have bright eyes, tell no lies
It's true, I'm alright, so it's time, time to try

I didn't mean to make it spin again
I didn't mean to mess up all over again

Sometimes I wish I lived like you
But to me it's still too plain
For my sake I wish I lived like you
But I wouldn't be the same

I didn't mean to make it spin again
I didn't mean to mess up everything!
