

# Leave Me Dead

Bloodpit

It's getting late and I am almost home  
I've seen many people and  
They've sure seen me  
Long days behind us and  
One more to go  
But once it's over will i find  
Myself alone

In and out of love and passion  
Run like hell it's now or never  
Seasons change I never notice  
Wake me up or leave me dead

I found my passion I even changed my name  
I gave them everything  
Sometimes not a thing  
What happend yesterday don't matter today  
I'm searching for a light  
To light the night

In and out of love and passion  
Run like hell it's now or never  
Seasons change I never notice  
Wake me up or leave me dead

We're alive just one time  
Let's not argue tonight  
We're alive just one time  
So let's not fight, girl, tonight

In and out of love and passion  
Run like hell it's now or never  
Seasons change I never notice  
Wake me up or leave me dead

leave me dead  
leave me dead  
leave me dead
