

## The Leaving Song

Bloodsimple

Sit here all in all  
Waiting on the phone  
Push my body to the floor  
Still you never call  
She's still with me  
Kiss still kills me  
Can't feel guilty  
It's just a memory

All the things you put me through  
All the hopeless nights I tried to make it right for you  
Show me how it is to lose  
And who the hell are you to drag me down with you

Flowers that I bought are now dead and gone  
Love that was before is gone evermore  
All my hurting, all my yearning, all that burning  
Can't you see that it is me  
My beautiful...

All the things you put me through  
All the hopeless nights I tried to make it right for you  
Show me how it is to lose  
And who the hell are you to drag me down with you

Every time I looked in your eyes  
Crucified again  
Every time you sold me your lies  
I was justified in the end  
Just like some face lost on a runaway train  
Pass me by and wave goodbye

All the things you put me through  
All the hopeless nights I tried to make it right for you  
Show me how it is to lose  
And who the hell are you to drag me down with you
