

Cannibal Holocaust

Bloodsucking Zombies from Outer Space

Welcome to the end of nutritional chain
a hole in your stomach and a belly full of pain
the hunger burns you have to eat
you need some food you want some meat

Forget about your moral doubts
if you wanna live there's no way out
what is wrong or what is right
come on and take a bite

This is the cannibal holocaust
Human against human
you've got to eat this motherfucker alive
This is the cannibal holocaust
you're a greedy carnivore
and you need flesh to survive

Rotenburg - the weirdest story I've ever heard
2 man - 1 knife and passion for the kill
your skin smells good, your blood's devine
I'm your flesh and yours is mine
so we gonna have for supper this tasty motherfucker
he will be the perfect dish - a toast to albert fish

This is the cannibal holocaust
Human against human
you've got to eat this motherfucker alive
This is the cannibal holocaust
you're a greedy carnivore
and you need flesh to survive
