

## Death does us part

**Bloody Hammers**

It's our last stand together  
All of our crimes have run us down  
Justice shall be found  
There is no chance between  
This cliff and all those loaded guns  
Nowhere left to run

With one step it ends here  
This mortal coil we'll depart  
Together  
Death does us part

For years one breath one voice  
Two spirits indivisible  
Grim but beautiful  
It's one last trip together  
A kiss before our final plunge  
Blissfully succumb

With one step it ends here  
This mortal coil we'll depart  
Our earthly work fulfilled  
I'll see you in hell for a new start  
Together  
Death does us part
