

# The witching hour

**Bloody Hammers**

In daylight we prepare  
Check all the locks leave no windows bare  
Cause you know we must absolutely sure

All the lights go down  
In this petrified and forsaken town  
We side with caution from the impure

It's the time of much dismay  
Stay very still as you kneel and pray  
The witching hour is upon you

And if you really stay  
Take warning and don't lose your way  
The witching hour is upon you

The night is growing long  
But we keep our faith and we're staying strong  
We'll wait until we're saved by the sun

The evil that became  
Never look their way never speak their name  
A whisper is as loud as a drum

It's the time of much dismay  
Stay very still as you kneel and pray  
The witching hour is upon you

And if you really stay  
Take warning and don't lose your way  
The witching hour is upon you
