

She Buried Herself In The Air

Blow

she buried herself in the air.where? up there.
she scurried up invisible back stairs
where? back there.
and what did she do all day long?

all day long, just rode along.
what did she do all day long?
all day long sang silent songs.
what did she do all day long?
all day long the dirge was on.
what did she do all day long?
all day long: mute button on.
