

The Long List Of Girls

Blow

i guess i'm on the long list of girls who love the shit
out of you
we know what not to expect it's about what we'll get
out of you
i guess i'm on the long list of girls who love the shit
out of you
we know what not to expect it's about what we'll get
out of you

you don't have to do that
rub up on me boy i love you enough
you won't lose my love just back away
take a weapon and aim it at someone you'll stay with
you don't have to do that
rub up on me boy i love you enough
you won't lose my love just back away
take a weapon and aim it at someone you'll stay with

i guess i'm on the long list of girls who love the shit
out of you
we know what not to expect it's about what we'll get
out of you
i guess i'm on the long list of girls who love the shit
out of you
we know what not to expect it's about what we'll get
out of you

watch where you point with that true love
fair: aim it up above
the sky is the only target wide enough to take it
when you aim at a heart all you ever seem to do it
break it

i guess i'm on the long list of girls who love the shit
out of you
we know what not to expect it's about what we'll get
out of you
i guess i'm on the long list of girls who love the shit
out of you
we know what not to expect it's about what we'll get
out of you
i guess i'm on the long list of girls who love the shit
out of you
we know what not to expect it's about what we'll get
out of you
i guess i'm on the long list of girls who love the shit
out of you
we know what not to expect it's about what we'll get
out of you
