

# Don't Wanna Say Goodbye

Blu Cantrell

I can barely remember  
What it was that made me walk away  
But something inside my heart  
Is telling me I still love you, baby

Now I'm walking all alone  
This cold December day  
I see you come to me, but I can't see  
'Cause all I wanna do is tell you, baby

How many times  
I daydreamed of what we could have been?  
And how many times  
I find myself asking why?

I will never stop loving you  
Can you tell me what I gotta do  
'Cause I never wanna say goodbye  
Don't wanna say goodbye again

Now I know that I was meant for you  
One more time I can't bear to lose  
I don't ever wanna say goodbye  
Don't wanna say goodbye again

We thought it'd last forever  
But still I was swept away  
What I thought I knew it wasn't true  
I wish I wouldn't knew before today

I always said I'd never  
Let myself lose again  
Yes, I found a way  
What I gotta do  
To get myself back to you

How many times  
I daydreamed of what we could have been?  
How many times  
I keep asking myself why?

I will never stop loving you  
Can you tell me what I gotta do  
'Cause I never wanna say goodbye  
Don't wanna say goodbye again

Now I know that I was meant for you  
One more time I can't bear to lose  
I don't ever wanna say goodbye  
Don't wanna say goodbye again

How can I get through to you?  
I'm not even close to over you  
Telling you the truth  
Got me shaky

There's nothing I won't do

To get you right back next to me  
The way it's supposed to be

I will never stop loving you  
Can you tell me what I gotta do  
'Cause I never wanna say goodbye  
Don't wanna say goodbye again

Now I know that I was meant for you  
One more time I can't bear to lose  
I don't ever wanna say goodbye  
Don't wanna say goodbye again

I will never stop loving you  
Can you tell me what I gotta do  
'Cause I never wanna say goodbye  
Don't wanna say goodbye again

Now I know that I was meant for you  
One more time I can't bear to lose  
I don't ever wanna say goodbye  
Don't wanna say goodbye again  
Say goodbye
