Don't Wanna Say Goodbye

Blu Cantrell

I can barely remember What it was that made me walk away But something inside my heart Is telling me I still love you, baby

Now I'm walking all alone This cold December day I see you come to me, but I can't see 'Cause all I wanna do is tell you, baby

How many times I daydreamed of what we could have been? And how many times I find myself asking why?

I will never stop loving you Can you tell me what I gotta do 'Cause I never wanna say goodbye Don't wanna say goodbye again

Now I know that I was meant for you One more time I can't bear to lose I don't ever wanna say goodbye Don't wanna say goodbye again

We thought it'd last forever But still I was swept away What I thought I knew it wasn't true I wish I wouldn't knew before today

I always said I'd never Let myself lose again Yes, I found a way What I gotta do To get myself back to you

How many times I daydreamed of what we could have been? How many times I keep asking myself why?

I will never stop loving you Can you tell me what I gotta do 'Cause I never wanna say goodbye Don't wanna say goodbye again

Now I know that I was meant for you One more time I can't bear to lose I don't ever wanna say goodbye Don't wanna say goodbye again

How can I get through to you? I'm not even close to over you Telling you the truth Got me shaky

There's nothing I won't do

To get you right back next to me The way it's supposed to be

I will never stop loving you Can you tell me what I gotta do 'Cause I never wanna say goodbye Don't wanna say goodbye again

Now I know that I was meant for you One more time I can't bear to lose I don't ever wanna say goodbye Don't wanna say goodbye again

I will never stop loving you Can you tell me what I gotta do 'Cause I never wanna say goodbye Don't wanna say goodbye again

Now I know that I was meant for you One more time I can't bear to lose I don't ever wanna say goodbye Don't wanna say goodbye again Say goodbye
