

# U Must Be Crazy

Blu Cantrell

You must be twisted  
Must be tripping  
If you're thinking that I'm  
Gonna keep on messing with you baby  
I gave you love, I gave you trust  
I gave you everything, but it was never enough

I'm tired of your stress  
So don't you waste your breath  
All I got for you is goodbye baby

You must be crazy  
Must be stupid  
Must be out of your mind  
To think I'm gone stay here baby  
So keep you lying, keep your cheating  
'Cause I'm doing just fine  
I'll be alright

Every girl was a friend  
And every truth was a lie  
You had me going in circles baby  
All night long you'd be out  
Doing your dirt no doubt  
I guess my love ain't that blind

I'm tired of your stress  
So don't you waste your breath  
All I got for you is goodbye baby

You must be crazy  
Must be stupid  
Must be out of your mind  
To think I'm gone stay here baby  
So keep you lying, keep your cheating  
'Cause I'm doing just fine  
I'll be alright

I guess our sun doesn't shine  
Guess the stars are not right  
For you and me to be one  
That I pray that you grow  
As a man even though

You must be crazy  
Must be stupid  
Must be out of your mind  
To think I'm gone stay here baby  
So keep you lying, keep your cheating  
'Cause I'm doing just fine  
I'll be alright
