

# Unhappy

Blu Cantrell

Here we go again  
I'm going through it with my man  
It seems like everything I do  
I can never please you  
Everyday you keep  
breaking me down  
Why you still staying around  
Front to back, inside out,  
head-to-toe  
If this ain't what you want  
Then you should go

If you're so unhappy  
With the way I am  
If you're so unhappy  
With the way I dress  
If you're so unhappy  
With all of my friends  
Then why don't you leave  
Can you feel me, feel me  
If you're so unhappy  
With the way I am  
If you're so unhappy  
With the way I dress  
If you're so unhappy  
Being my man  
Then why don't you leave  
Can you feel me, feel me

We used to be best friends  
Now three years is  
coming to an end  
Feels like I'm wasting my time  
Trying to get you to treat me right  
Telling me I can't cook no more  
You don't kiss me  
When I walk through the door  
I'm still the same girl  
you fell in love with  
The same one  
that put up that's been  
putting up with your bullshit

If you're so unhappy  
With the way I look  
If you're so unhappy  
With the things I cook  
If you're so unhappy  
being my man  
Then why don't you leave  
Can you feel me, feel me  
If you're so unhappy  
With how I style my hair  
If you're so unhappy  
With the clothes I wear  
If you're so unhappy  
Being my man

Then why don't you leave  
Can you feel me, feel me

You're gonna realize that one day  
you were wrong to treat me that way  
Nothing good gonna come to you  
Til you know what it is to be true  
better be careful what you do  
cuz everything you do,  
comes double back to you  
so the next girl that comes your way  
give her more love than you gave me

If you're so unhappy  
With the way I am  
If you're so unhappy  
With the way I dress  
If you're so unhappy  
With all of my friends  
Then why don't you leave  
Can you feel me, feel me  
If you're so unhappy  
With the way I am  
If you're so unhappy  
With the way I dress  
If you're so unhappy  
Being my man  
Then why don't you leave  
Can you feel me, feel me
