

baby, baby

Blue Café

I wanna feel, I'm for you.
I wanna know, I'm just for you.
I wanna taste life with you.
I wanna see myself with you.

You let me be who I am.
You make me feel I'm the best, baby.
Please let me be with you baby.
I wanna scream on your name.

Baby, baby, baby like you.
There's no other man like you.
Oh baby baby I love you.
There's no other man like you.

I wanna know what is life,
to be the one, to be your wife.
I wanna make you feel fine.
So let me care for you right now.

You let me be who I am.
You make me feel I'm the best, baby.
Please let me be with you baby.
I wanna scream out your name.

Baby, baby, baby like you.
There's no other men like you.
Oh baby, baby I love you.
There's no other men like you.

Baby I need you so.
You know, I'm gonna get you.
Honey, I need you so, want you saw
Baby, baby now.

Baby, baby, baby like you.
There's no other man like you.
Oh baby, baby I love you.
There's no other men like you.

Stepping away with you.
I wanna scream out your name.
Stepping away with you,
oh, oh, oh...

Stepping away with you.
I wanna scream out your name.
Stepping away with you,
oh, oh, oh...

Stepping away with you.
Stepping away with you,

Stepping away with you,
Oh there's no other men like you.
