

Get Out

Blue Café

I say get out, I say bye bye
I say get out, I say bye bye

I'm gonna put your books in basket
I'm gonna put your smell in basket
Pictures of you and me in basket (oh oh)

I put the memories in basket
I put the things you left in basket
I put your melodies in basket (oh oh)

I say get out, I say bye bye
Now I must get over
Say get out, I say bye bye
Now I must get over

I'm gonna put your smell in basket
The bracelet I've got from you in basket
All that I heard you said in basket (oh oh)

Sound of your voice I put in basket
Nice that I spent with you in basket
Basket itself I burnt and basket's gone on

You won't be teasing now, teasing now, teasing with me
You won't be playing and you longer with (ooo)
You won't be teasing now, teasing now, teasing with me
You won't be playing and you longer with (ooo)

I say get out, I say bye bye
Now I must get over
Say get out, I say bye bye
Now I must get over

Say get out, I say bye bye
Now I must get over
Say get out, I say bye bye
Now I must get over
