This must be love
I wanna hold you baby
This must be love
I wanna kiss you baby
This must be love
I wanna touch you baby
This must be love
I really need you baby

I wanna hold you when I want to
I need your every touch
I wanna kiss you, love you, hate you
I need you every day, every night

I'm gonna break the rules just for you
I'll do it here and now
I'm gonna break my heart to show you
I'm burning all inside, all the time

Cherish my love...

Maybe they'll say that I am crazy
But I don't give a damn
Maybe they'll mock me I don't care 'cause
I'm gonna f**k them all, f**k it now

I'll do it just for you my baby
Because I need you so
I beg you honey don't you screw it
Cause I will disappear, is that clear
