

My Road

Blue Café

Now I feel I am on my road
Now I feel I can change the world
You'll never die
And You're all my life
I say You'll never die
In my heart You're still alive

Now I know I am not alone
Now I know I can touch my soul
I dream of place where I could stay
I say I dream of place
Where I'll meet You once again

One day we'll die
Your love will stay
As long as mine
You were all my life
It was fine to love You
You'll be on my mind
Forever

Many times I looked in the sky
Many times I looked in Your eyes
Cry baby cry
Cause time's passing by
I promise now
I will never let You down

One day we'll die
Your love will stay
As long as mine
You were all my life
It was fine to love You
You'll be on my mind
It was fine to love You
Searchin' another real me
Say you need me one last time

One day we'll die
Your love will stay
As long as mine
You were all my life
It was fine to love You
You'll be on my mind
Forever

Now I feel I am on my road
Now I feel I can change the world
You'll never die
And You're all my life
I say You'll never die
In my heart You're still alive
