Blue Café

Close your eyes and try to sleep
Sleep sleep tight
Cause I know you're feeling weak
So sleep now

Every tear of yours
Fight it with your love

Share your love
With me
Share your love
With someone who's in need
Share your love
Don't weep
Share your love
You gotta fight to live

There's no need to be afraid
I am here for you
All the pain will go away

Open your eyes
Look at me don't weep now

Cause I know
that you can speak to me now

when the tears will flow
when you'll feel alone
