

# Ride With Me

Blue Cheer

Blood runs hot around your neck  
No matter what you do  
The evening's cold, The nighttime sweats  
The strangest colors of blue.

You want it hard  
You want it fast  
You give it all you got  
Make no mistake  
The time will last  
Just give it your best shot.

They say we're young and we don't know  
They say we don't have a clue  
The price you pay to live your life  
The shit they toss to you!

You want it hard  
You want it fast  
You give it all you got  
Make no mistake  
The time will last  
Just give it your best shot.

Ride with me to the sun  
Ride with me to the dawn  
Ride on!  
Ride on!  
Ride on!  
Ride with me to the dawn.

The blood runs hot all down your legs  
No matter what you do  
The price you pay to live your life  
The shit they toss to you!

You want it hard  
You want it fast  
You give it all you got  
Make no mistake  
The time will last  
Just give it your best shot.

Ride with me to the dawn  
Ride with me into the sun  
Ride on!  
Ride on!  
Ride on!  
Ride with me for the dawn.
