

Rainy Day

Blue Effect

Incomplete lyrics to songs:

Rainy day

Yeah, it's rainy
The sky cries over me
It is a question
To be or not to be

It sure wasn't fair
To ???? our ?????
So harmless like you

My road is misty
I cannot clearly see
If I am thirsty
Who gives to drink to me?

I was used to you
It can't be true
It's just a bad dream

But I am not a weakling
With a broken heart
Rainbow and sun are coming
I'll stop to ?????

Don't love the ???
Don't love the ???
You are not lonely
You are not lonely

Where is my star

My brother's interested in the girls
My sister likes a dancing show
But I like only ???????????
My love, my love, yeah

Everybody likes to have ????
And he doesn't know
What's the ????
But I follow every light only
To scream, to scream "yeah"

I'm sitting here
And looking from my window
Waiting for a better time
Looking forward
I see many birds
They are flying very far

I see many birds
They are flying very far
I would like to be happy

To fly, to fly away
On my star
