

What Is Rock

Blue Man Group

I don't know
Where to go
So I guess I'll stay right here.

I close the door, I find a chair, I sink.
The music's on and I try not to think
About how long it's been that I've been alone.
While the song is on, I'll get along.

I don't know
Where to go
So I guess I'll stay right here.

I'm at the club, I'm in the crowd all alone.
I'm waiting for the music to come on
'Cause once the song's begun the group is one
And once the song is done the group is gone.

I don't know

I close the door, I find a chair, I sink.
The music's on and I try not to think
About how long it's been that I've been alone.
While the song is on, I'll get along.

I'm at the club, I'm in the crowd all alone.
I'm waiting for the music to come on
'Cause once the song's begun the group is one
And once the song is done the group is gone the group is gone t
he group is gone.

I close the door, I find a chair, I sink.
The music's on and I try not to think
About how long it's been that I've been alone.
While the song is on, I'll get along.

I'm at the club, I'm in the crowd all alone.
I'm waiting for the music to come on
'Cause once the song's begun the group is one
And once the song is done the group is gone the group is gone t
he group is gone.
