

A Quiet Mind

Blue October

A slow strangle with feet on the floor
I've got 14 angels and we're sleeping alone
In the back of a cave, where the rest of us go
To feel normal

I call baby up. Leave me alone.
I'm in pain but I won't let you band-aid the wound
I'm mad at a stage where I can't even handle my own

Give me a quiet mind and I...
I love you
You give me a quiet mind and I...
I love you

Until the end...

And the song goes on with the same pattern.
Good luck and have a great day.
