

Graceful Dancing

Blue October

Describe the pain
That choked your reality
It's all in your mind he said
You have to go graceful dancing

I closed the door on the war I started last Halloween
I'm gonna be fine again
I have to keep graceful dancing

Here we are
You're a superstar on your own
And I'm looking over your shoulder, getting older
And god only knows

That here we are
And you're a superstar on your own
Yea here we are

The sunset rains, like a bullethole
Trees only seem for hanging
The moon is a target range
And rivers seem only for drowning

You ball the blame
Then you starve to finish your painting
Its gonna take time my friend
You have to keep graceful dancing

Here we are
And you're a superstar on your own
And I'm looking over your shoulder getting older
And god only knows

Here we are
And you're a superstar on your own
Here we are
