

# Kangaroo Cry

Blue October

Losing my control  
Here it is the day I have to go

Just sit beside me  
I can't let this show  
How sick I feel to leave you so alone  
God I'm terrified

We've lost respect for decency  
When one could turn our world into an ant pile  
We run circles, no direction do I see  
The dust has blinded you, the dust has blinded me

I kissed her on the cheek and then I waved goodbye  
She had the saddest look I've seen in years - a kangaroo cry  
A warm pathetic ocean flow we have to live by  
We have to live by  
Because we have to live

And you choose to break our families  
Tell me you've used all precautions known

And I'll stand beside the ones who stood alone  
How long will we have to sing until you finally bring our sons,  
Our daughters home?

We'll let the prayers start healing, what time's been stealing

We only want to feel as close as we can be  
Use hands for holding on to your precious family  
Just believe in all who shine

The light to help you see  
Cause if I believe in you, will you believe in me?

I kissed her on the cheek and then I waved goodbye  
She had the saddest look I've seen in years - a kangaroo cry  
A warm pathetic ocean flow we have to live by  
We have to live by  
Because we have to live

And you choose to break our families  
Tell me you've used all precautions known

And I'll stand beside the ones who stood alone  
How long will we have to sing until you finally bring our sons,  
Our daughters home?

We'll let the prayers start healing, what time's been stealing

Been stealing.  
Keep hanging on  
Keep hanging on  
Keep hanging on  
Keep hanging on

We'll let the prayers start healing, when time's been stealing

Start healing, Start healing
