Kangaroo Cry

Blue October

Losing my control
Here it is the day I have to go

Just sit beside me I can't let this show How sick I feel to leave you so alone God I'm terrified

We've lost respect for decency When one could turn our world into an ant pile We run circles, no direction do I see The dust has blinded you, the dust has blinded me

I kissed her on the cheek and then I waved goodbye
She had the saddest look I've seen in years - a kangaroo cry
A warm pathetic ocean flow we have to live by
We have to live by
Because we have to live

And you choose to break our families
Tell me you've used all precautions known

And I'll stand beside the ones who stood alone How long will we have to sing until you finally bring our sons, Our daughters home?

We'll let the prayers start healing, what time's been stealing

We only want to feel as close as we can be Use hands for holding on to your precious family Just believe in all who shine

The light to help you see Cause if I believe in you, will you believe in me?

I kissed her on the cheek and then I waved goodbye

She had the saddest look I've seen in years - a kangaroo cry

A warm pathetic ocean flow we have to live by

We have to live by

Because we have to live

And you choose to break our families
Tell me you've used all precautions known

And I'll stand beside the ones who stood alone How long will we have to sing until you finally bring our sons, Our daughters home?

We'll let the prayers start healing, what time's been stealing

Been stealing. Keep hanging on Keep hanging on Keep hanging on Keep hanging on We'll let the prayers start healing, when time's been stealing

Start healing, Start healing
