

# Light You Up

Blue October

I'm never gonna give up  
Remember what abuse did  
It's time you look at facing  
As if you were in anyway understood

It always lowered me to downsize  
It always lowered my faith  
But it's in the corner rising next to me  
It's in the corner like it upstage

I can't explain the way I feel inside  
Maybe because it's I'm through  
Yeah, you heard it  
I'm gonna light you up  
So I light you up  
You can't admit your poison  
Go run and hide  
Fuck you  
Yeah, you heard it  
I'm gonna light you up

I said I wouldn't fail you  
It's something sorry couldn't sell you  
A slow rain, a time bomb  
Disconnect it won't erase what I'd done wrong

In no way is it worth  
Losing everything I am including these words  
Your heart in my hands  
I'm sick as all my secrets that's why this hurts

I can't explain the way I feel inside  
Maybe because it's I'm through  
Yeah, you heard it  
So I light you up  
You can't admit your poison  
Go run and hide  
Fuck you  
Yeah, you heard it  
I'm gonna light you up

'Cause they'll put me in the crazy house  
And it put me in the crazy farm  
And I'm never gonna get back out  
I'm never ever gonna treat you wrong  
Get down to the earth and the people  
Get down to the earth in your bed  
That's where I'm gonna go  
And where I'll never go  
When I'm in my motherfucking head.

So tell your mom, tell your dad, tell your family  
That I'm beyond the unreasonable sinking ship  
You see I never took the time  
Never took the time  
Never took the time  
To learn all about these things you call a relationship

I can't explain the way I feel inside  
Maybe because it's  
Fuck you  
Yeah, you heard it  
So I light you up  
You can't admit your poison  
Go run and hide  
I'm through  
Yeah, you heard it  
I'm gonna light you up
