

Ugly Side

Blue October

I must have sneezed, on knees I freeze
I mean, I just choked up
But somehow I slept, I dream, I mean
I dreamt of nothing

I'm able to breathe a sweet relief
Now that you're here for me
A northern degree dove into me
Now I'm recovering

I only want you to see
My favorite part of me
And not my ugly side
And not my ugly side, ugly side

So hook up a C.B
Wave a way for conversation flow
I'm shoved in your cage, to wage this rage
Don't let me go

A kick and a scream
Is all that seems to mean a lot, thus far
Yeah, I won't let you on my stage, my page
You can't know, yet you have to know

And that I only want you to see
My favorite part of me
And not my ugly side
And not my ugly side

I only want you to see
My favorite part of me
And not my ugly side
And not my ugly side

So calm, ohh ooh
And it's so calm

And now it's dark
I look for you to light my heart
I'm between the moon and where you are
I know I can't be far
