

## Ugly Side

Blue October

I must have sneezed, on knees I freeze  
I mean, I just choked up  
But somehow I slept, I dream, I mean  
I dreamt of nothing

I'm able to breathe a sweet relief  
Now that you're here for me  
A northern degree dove into me  
Now I'm recovering

I only want you to see  
My favorite part of me  
And not my ugly side  
And not my ugly side, ugly side

So hook up a C.B  
Wave a way for conversation flow  
I'm shoved in your cage, to wage this rage  
Don't let me go

A kick and a scream  
Is all that seems to mean a lot, thus far  
Yeah, I won't let you on my stage, my page  
You can't know, yet you have to know

And that I only want you to see  
My favorite part of me  
And not my ugly side  
And not my ugly side

I only want you to see  
My favorite part of me  
And not my ugly side  
And not my ugly side

So calm, ohh ooh  
And it's so calm

And now it's dark  
I look for you to light my heart  
I'm between the moon and where you are  
I know I can't be far
