Blue Öyster Cult

I hear the music, daylight disc  
Three men in black said, Don't report this  
Ascension and that's all they said  
Sickness now, the hour's dread

All praise  
He's found the awful truth, Balthazar  
He's found the saucer news

I'm in fairy rings and tower beds  
Don't report this three men said  
Books by the blameless and by the dead  
King in yellow, queen in red

All praise  
He's found the awful truth, Balthazar  
He's found the saucer news

Dead leaves always give up motion  
I no longer feel the motion  
Where prophecy fails, the falling motion  
Don't report this, agents of fortune

All praise  
He's found the awful truth, Balthazar  
He's found the saucer news
