

# Fallen Angel

Blue Öyster Cult

From the dust I rose on high  
Thunder cloud in a two-lane sky  
From the world I did rebel  
A fallen angel

Highway lust was in my blood  
No girl could ever take my love  
Cold and cruel and then I fell  
A fallen angel

A girl so strange I lost my head  
Lost it all got left for dead  
I curse the day now I'm just a shell  
A fallen angel

Gonna rise up from hell  
I'm the fallen angel

When the brink of ruin lies  
Upon the world angels shall rise  
To lead the fallen now remember world  
A fallen angel

Gonna rise up from hell  
Gonna rise up from hell  
Gonna rise up from hell  
I'm the fallen angel
