

# Goin' Through the Motions

Blue Öyster Cult

Too wild to care  
You got animal stare  
You got "stay anywhere" in your eyes  
Think you're leading me on but you can be anyone  
'cause I know you'll be gone 'fore I rise

And we're going through the motions  
Yeah, we're going through the motions  
Yeah, we're going through the motions  
Going through the motions

Staying with you gave us something to do  
I almost thought it was true for a while  
'cause there's love in your lies  
You're so thinly disguised  
You couldn't tell right from wrong if you tried

And we're going through the motions  
Yeah, we're going through the motions  
Yeah, we're going through the motions  
Going through the motions

To thee I dedicate this photograph  
I'll even sign it "love to you" again  
And when it's faded and forgotten in some book  
You'll sometimes look  
You'll sometimes look  
You'll sometimes look

It's a game, it's a game  
No let's call it a shame  
'cause there's no one to blame just to pay  
You were a friend for a day  
So don't cry if I say  
That you got what you want, it's ok

And we're going through the motions  
Yeah, we're going through the motions  
Yeah, we're going through the motions  
Going through the motions

Yeah, yeah, we're going through the motions  
Yeah, we're going through the motions  
Yeah, we're going through the motions  
Going through the motions
