## **Beautiful**

**Blue Rodeo** 

You are sleeping In a room down the hall And outside your window snow falls It's almost as beautiful It's almost as beautiful It's almost as beautiful

The gentle morning light So quiet and true It's almost as beautiful as you It's almost as beautiful It's almost as beautiful It's almost as beautiful

And while the world is waking I'll just sit here for awhile Cause I couldn't imagine a better time It's almost as beautiful It's almost as beautiful It's almost as beautiful
