

So you saw that fire in the sky  
Well I think that's so cool  
And I know that nothing will change you  
You are nobody's fool

Won't you take me to  
Pyramid Lake with you  
We could watch the spaceships  
Maybe they'd take us on a trip  
Into that never ending sky  
Into that wide and endless night

And you stood in their beam of light  
And they showed you the bones on the moon  
Well I hope I get to go there  
With you real soon

Won't you take me to  
Pyramid Lake with you  
We could watch the spaceships  
Maybe they'd take us on a trip  
Into that never ending sky  
Into that wide and endless night

We could get there  
Before the sun sets  
And we'd put up your tent  
Watch the stars  
Dance all night  
And watch that sun come up

Won't you take me to  
Pyramid Lake with you  
We could watch the spaceships  
Maybe they'd take us on a trip  
Into that never ending sky  
Into that wide and endless night
