

# Don't Let The Darkness In Your Head

Blue Rodeo

Don't let the darkness in your head  
All the love you meant to share  
You shared  
All the tears we'll never hear  
All the dreams that disappear  
Sometimes you feel so alone  
In the shadows of regret

Don't let the darkness in your head  
All the things you meant to say  
You Said  
All the love you meant to share  
You shared  
Don't let the darkness in your head

All the pain that's messin up your mind  
Makes you feel like they're leavin you behind  
Sometimes you feel so alone in the shadows of regret  
Don't let the darkness in your head  
All the songs you meant to sing  
You did  
All the love you meant to share  
You shared  
Don't let the darkness in your head

Don't let the darkness in your head  
All the songs you meant to sing  
You did  
Don't let the darkness in your head  
All the love you meant to share  
You shared
