Girl Of Mine

Blue Rodeo

Girl of mine Where did we go wrong Oh you never once said you loved me And you never once called my name And now I I can see the way

My memories like cigarettes Blow smoke upon the screen I stare up to the empty face That hangs inside my dreams In the words of love I hesitate They all come rushing in to me Too late too late

Days and nights Wondering what could it be Did you need somebody stronger Someone to see you through Oh girl I never knew

Now your lipstick and your powder They're all put away in drawers But the traces of our love affair Still hide behind the doors I lie awake afraid to sleep Cause I see the face I knew I'd never keep I'd never keep

Too much to bear Too much I fall down drunk Too much I care

Tell me now Do the words of love still seem the Same to you Now we learned the angry lessons And we still came back for more Forget somehow what came before

My senses have been shocked And I'm alive to every pain Your quiet laughter comes to me It echoes in the rain In the darkness of my lonely room I pray that you won't fade Away too soon Too soon

It's too much to bear It's too much I fall down drunk Too much I care Oh...
