

In Our Nature

Blue Rodeo

When life feels like a storm-filled sky
That twists and turns inside your mind
Like a sheet hung on the line
It's in our nature to fly

Like a kite tossed side to side
The wind will guide us 'til we die
Like the clouds chased thru the night
It's in our nature to fly

I fell into your bright green life
We rode those colours for a while
Until the sky unleashed her light
It's in our nature to say goodbye
It's in our nature to say goodbye
