

Never Look Back

Blue Rodeo

You deceive me
Then you laugh
And now your doin' everything that you can
To try to win my love back

You made promises
You never kept
Yes I followed you to the end
And I never looked back
Never looked back
Never looked back
Yes I followed you to the end
And I never looked back

You were everything
So complete
And yes I learned how to turn every trick
On the end of that leash

Oh ho baby
I wanted you so bad
Yes I followed you to the end
And I never looked back
Never looked back
Never looked back

Yes I followed you to the end
And I never looked back

You were everything
So complete
Yes I learned how to turn every trick
On the end of that leash

Oh ho baby
I wanted you so bad
Yes I followed you to the end
And I never looked back
Never looked back
Never looked back
Yes I followed you to the end
And I never looked back

Never looked back
Never looked back
Yes I followed you to the end
Followed you to the end

Yes I followed you to the end
And I never looked back

Yes I followed you to the end
And I never looked back
