

## Over Me

Blue Rodeo

Walk along the darkened streets  
You hear music and you hope it never stops  
Make your way through strangers' lives  
Talk to girls who work in coffee shops

Then you came over me, over me  
Snuck up from behind you see  
I watch and I wait  
Nothing ever comes  
But now I know I'm standing where I'm supposed to be  
Over me

Darkness by the riverside  
Lets you know you've only so much time  
History comes round again  
But no one seems to pay it any mind

Then you came over me, over me  
Opened up my eyes to see  
I watch and I wait  
Nothing ever comes  
But now I know I'm standing where I'm supposed to be  
Over me

Sometimes you never know  
How the winds of change will come and go  
World goes round and round  
And you throw away the good things that you've found

Then you come over me, over me  
Wrapped your arms around me now I see  
I watch and I wait  
And nothing ever comes  
But now I know I'm standing where I'm supposed to be  
Over me  
Now I know I'm standing where I'm supposed to be  
Over me
