

## Wasted

Blue Rodeo

Getting high don't make you happy  
Still it's all you ever do  
One day the life of the party  
Now you haven't a clue  
All that was a distant memory  
Now you're feelin' so blue  
A passing tear still it makes you laugh  
As another morning comes too soon  
You think you're so smart  
You got your plan you've got it all worked out  
You can fool your friends but you won't get far  
With that broken heart of yours  
Forever lettin' you down  
You can't explain it  
Might as well get wasted

Every day starts with the promise  
This'll be the last time  
But come the late night with its sorrows  
And you feel like gettin' high  
When all the world seems so far away  
And you don't care why  
Precious sleep is all you really need  
But you just can't close your eyes  
You got so much love to give  
But now it's all just slippin' away  
Can't take yourself for another day  
With that broken heart of yours  
Forever lettin' you down  
You can't explain it  
Might as well get wasted

You think you're so smart  
You got your plan you got it all worked out  
You can fool your friends but you won't get far  
With that broken heart of yours  
Forever lettin' you down
