

2000 Miles

Blue System

Tomorrow you'll find your hero
We could been so good tonight
Oh babe, this love never dies
Tomorrow shadows and sorrows

Oh, love is stronger than pride
Because, babe, my tears will dry
Two hearts beating together
One love is lasting forever

True love will never deny
Baby, baby, baby
2000 miles to love you
But baby I'm only a fool for a better story

Oh baby, I only want you
You're crying on the telephone
You can't hide your heart
You can sail the ship alone

Everybody needs a little love
Tomorrow we'll chase rainbows
Don't lose your love paradies
Oh babe for secret lies

Tomorrow I say I'm sorry
When hearts will tumble down
Love will make the world going around
Two hearts beating together

One love is lasting forever
True love will never deny
Baby, baby, baby
Tomorrow you'll find your hero

We could been so good tonight
Oh babe, this love never dies
Tomorrow shadows and sorrows
Oh, love is stronger than pride

Because, babe, my tears will dry
Two hearts beating together
One love is lasting forever
True love will never deny

Baby, baby, baby
2000 miles to love you
But baby I'm only a fool for a better story
Oh baby, I only want you

You're crying on the telephone
You can't hide your heart
You can sail the ship alone
Everybody needs a little love

Tomorrow we'll chase rainbows
Don't lose your love paradies

Oh babe for secret lies
Tomorrow I say I'm sorry

When hearts will tumble down
Love will make the world going around
Two hearts beating together
One love is lasting forever

True love will never deny
Baby, baby, baby
