

## 48 Hours

Blue System

This world is a burning fire, everybody pays his price  
You can't stop my desire, I'm the pirate of your paradise  
I know heaven is forever, I can't stop, babe loving you  
Here I dance on heavy weather, I always will be true

Just another dream, I will share you  
Just another night, gonna feeling blue  
Just another day, I can't say goodbye  
Hit me, hit me baby

I don't lie  
48 hours, come baby, hit me all night long  
48 hours, oh baby make me ooh, so strong  
48 hours, come hear the rhythm of my heart

I'm burning, turning, turning for a start  
Oh baby, only 48 hours you can make me strong and say  
Only 48 hours we'll be rocking, we'll be talking to the U.S.A.  
This love is like a thunder, oh, nobody knows my way

No heartaches by the number, I can win if I don't play  
Outside the gates of heaven, a love is hard to find  
Close your eyes to seven, you're always on my mind  
Just another dream, I will share you

Just another night, gonna feeling blue  
Just another day, I can say goodbey  
Hit me, hit me baby  
I don't lie
