

Don't Stop To Dance

Blue System

Don't stop to dance
Till the beat will turn you on (back to Babylon)
Don't stop to dance
Till your heart is beating strong (back to Babylon)

Oh, I'll take you high
And I'll turn you on
And the beating is beating to Babylon
And I feel the beat

Can't you hear the drums
And the beat is beating to Babylon
Oh, put the needle on the record
Put your soul down to me

In the lonely nights be my love
Be the queen of misery
I keep you a secret, I keep emotion
I keep it deep down in my heart
I keep a promise and all devotion

Oh, come play your part
Oh, if you want my love, I promise
I don't like to sleep alone
We have breakfast done in Paris
We have dined just in Rome

I keep you a secret, I keep emotion
I keep it deep down in my heart
I keep a promise and all devotion
And I play my part
