

# Every Night, Every Day

Blue System

Every night, every day - oh, Im searching for my way  
And Im dreaming of you all my life  
Every night, every day - oh, believe me oh I pray  
Set the dream to your heart to survive  
Every night, every day - oh, Im searching for my way  
And Im dreaming of you all my life  
Every night, every day - oh, believe me oh I pray  
Set the dream to your heart to survive

I said ... - promised paradise  
Every night, every day baby, oh I pray  
Oh she lied - when she cried  
She can not hide  
She was sad, so sad  
I saw love in her eyes  
And my paradise  
Every night, every day - hard for me to say  
I was blind, so blind  
Couldnt realize that my heart, my heart was hypnotised in you

Every night, every day - oh, Im searching for my way  
And Im dreaming of you all my life  
Every night, every day - oh, believe me oh I pray  
Set the dream to your heart to survive  
Every night, every day - oh, Im searching for my way  
And Im dreaming of you all my life  
Every night, every day - oh, believe me oh I pray  
Set the dream to your heart to survive

Oh, I cry, I cry forever  
Why cant we stay together ?  
Cant you see my life is in your hands ?  
Oh, I cry, cry forever  
Baby, I love you ever  
Cant you see my life is in your hands ?  
Cant you see my life is in your hands ?

Oh it hurts that shes gone  
Feeling so alone  
Every night and every day - hope to awake  
Come back - please come back  
Always in my head  
Only you makes me blue  
Whatelse can I do  
Cant I find in your mind  
Youre the lonely kind  
Every night and every day  
Believe me when I say  
I need you, just you - couldnt realize  
That your heart in my heart was so specialised in me
