

# I Miss You

Blue System

Baby, babe, believe me  
You're talking in your sleep  
I promised you - believe me  
Our secret I will keep  
Oh, baby, babe, I swear you - I send an S.O.S to you  
And if you really want me - I'll never make you blue  
And if you promise - it's forever  
Oh, baby, can we live together ?

I miss, I miss, I miss you  
I miss you night and day  
I miss, I miss, I miss you  
Come back and stay

And when I die - I die for you  
And when I cry - I cry just for you  
Every little thing - everything I do for you  
I miss you  
With or without you - with or without you

Baby, baby believe me  
I call you on the phone  
I promised you - believe me  
Oh babe, I'm so alone  
Oh, baby let me hold you  
There's something going on  
You know that I have told you - heaven is for everyone  
And if you promise - it's forever  
Baby, can't we live together?
