

Laila

Blue System

Laila, laila, laila, laila, lai
Laila, laila, laila, laila, lai

Laila, laila, laila, laila, lai
Laila, laila, laila, laila, lai

I'm justified and banned, baby for your love
Oh, I need you every day
I don't care, my feelings are just enough
This time, oh we'll go my way
It's not a problem, please don't go away
I don't care what people say

Laila, laila, laila, laila, lai
Oh I miss you laila
Laila, laila, laila, laila, lai
Oh I need you laila

Oh, laila it's like ecstasy
Are you ready, oh come fly with me
Oh, little laila, I make dreams come true
In a land of love for me and you

Anytime I see you, I'm hypnotized
Why we're going separate ways
The mystery of love, babe I'm specialized
Oh, I miss you every day
Oh, we're searching just together, girl
Baby, for a better world
